VC Book Text
Circl-Serv Literature
Publications re: VC
University of Cincinnati Contest Brochure
2 Video Tapes

Dear Paul:

The purpose of sending above enclosures to you is to help enable you to consider establishing a permanent Victory City exhibit in the Chicago Museum of Science & Industry. The enclosed informal Agreement papers further elaborate on my ideas for this projected exhibit.

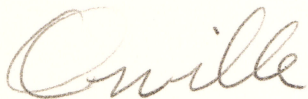

I will be looking forward to hear your ideas on the subject. Together we may make history.

Although I have presented all the items in the box to the Cincinnati Museum of Natural History and made the same proposal to them, they have not yet responded one way or the other. Other people have pointed out to me, that whereas the Cinti. Museum expects 1,000,000 people to visit each year, the Chicago Museum would have 10,000,000. Therefore Chicago would be more cost effective and Chicago is my first priority.

In the event that you are able to come to Cincinnati after your Athens, Ohio visit, I would enjoy meeting you at the airport.

Let me know if you have any questions concerning the contents of the box or if you would like to discuss the Victory City exhibit further.

Sincerely,

Orville Simpson II
