

as embodied in the Circl-Serv food service system, was designed to save time and labor.

Benefits of the Circl-Serv Cafeteria System

- Food moves to the customer, always in sight, within easy reach
- Fast food service
- Built-in efficiency reduces labor costs
- Requires less area than straight line service
- Motion adds a merchandising buy-appeal to food, improves check average
- Minimum mechanical installation costs
- Heaters rotate with hot foods section, to retain optimum temperature
- Mechanically cooled cold sections
- Speed of rotation easily adjusted from kitchen
- Factory installed and operable within two weeks

Issues
