University of Cincinnati Contest Brochure

Dear Mr. Trump:

Enclosed are pictures of my concept of the city of the future, Victory City (VC). If you should be interested in building this VC, I will be glad to send you all my present plans and any that I might make in the future - Free of Charge.

The only thing I ask is that if you finance the project by forming a corporation and sell stock to the general public, that I be allowed to be amongst the first to buy.

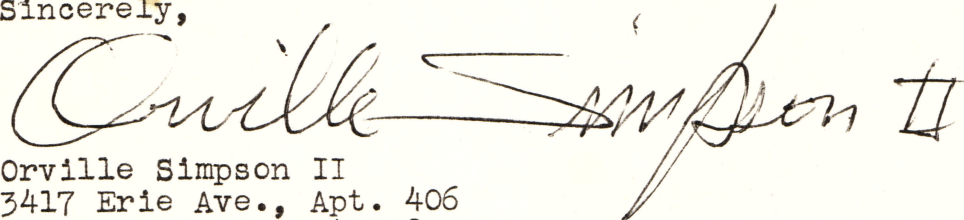

I was encouraged by the last few paragraphs in your book to think that you might seriously consider such an enormous project as VC. It would be the largest construction project in history and would be remembered in the history books for centuries, even thousands of years.

The first VC would not be the last, but the beginning of a trend. Eventually there would be VC's all over the world.

If you are at all interested in VC, I would like to meet you in person and discuss with you the whole VC concept thoroughly. You are welcome to come here, or I am willing to travel to New York and bring as much of the VC exhibit as will fit in my car.

Your reaction to VC will be of great interest to me and I can hardly wait to get your analysis, in view of your amazing success in business reflecting a superior mind.

Sincerely,

A handwritten signature in cursive script that reads "Orville Simpson II". The signature is written in dark ink and is positioned above the typed name and address.
