IF YOU ARE GOING TO VICTORY CITY THEN YOU PARK YOUR CAR IN THE SECOND FLOOR GARAGE. YOU PAY NO MONEY FOR PARKING AND PARK AS LONG AS YOU WISH. TRY THIS SOMETIME IN THE DOWNTOWN AREA OF ANY ONE OF THE OLD FASHIONED OBSOLETE CITIES.

THERE ARE ELEVATORS THROUGHOUT THE GARAGE TO TAKE YOU TO WHATEVER FLOOR YOU WANT. UPON ARRIVAL AT YOUR FLOOR THE ELEVATORS OPEN UPON AN INTERNAL STREET, WHERE YOU CAN TAKE AN ELECTRIC CAR TO ANY LOCATION ON THAT FLOOR.

A VICTORY CITY WILL BE BUILT OF REINFORCED POURED CONCRETE. IT WILL HAVE METAL DOORS AND DOOR FRAMES, ^{METAL} ALUMINUM WINDOWS; THE OUTSIDE WILL BE FINISHED IN AN ^{A METAL} ALUMINUM CURTAIN WALL WITH A BAKED ENAMEL COLOR. THE ENTIRE BUILDING WILL BE BOTH FIREPROOF AND SOUNDPROOF. IT WILL HAVE CENTRAL HEATING AND AIR CONDITIONING THROUGHOUT.

EVEN IN THE MOST SEVERE WINTER WEATHER WHEN THE SNOW IS KNEE DEEP AND THE TEMPERATURE IS BELOW ZERO OR WHEN IT IS POURING DOWN RAIN, YOU CAN GO ANYWHERE IN VICTORY CITY WITHOUT ANY DELAY OR DISCOMFORT OR INCONVENIENCE
