

Test Case ID	Action (verb phrase)	Condition (condition clause)	Logical Variation	Test Oracle	Test Verdict	Remark
F1-TC1	(default)	(default)	N/A	a participant moves from the lobby DIRECTLY to a breakout session	passed	
F1-TC2		"if breakout sessions are currently running"	do have breakout sessions, but do NOT run them (that is, opposite of the condition)	a participant should not move from the lobby DIRECTLY to a breakout session	passed	
F1-TC3	"pick" which session to admit your selected participants to		the to-be-admitted breakout session is already FULL	"pick" should be disallowed, or a proper message should be displayed to explain why the participant cannot be directly admitted into a breakout session	open	(unable to change the capacity [maximum allowed number of participants per breakout session], and hence unable to observe the test case result]
F1-TC4	"find" participants in the lobby		"find" TWO participants with the SAME first name, then assign BOTH to a breakout session	both participant should move from the lobby DIRECTLY to a breakout session	passed	
F1-TC5		"where breakout sessions have already been started"	do the pre-assignment, but do NOT start the breakout sessions yet	pre-assigned participants should stay/remain in the lobby	passed	
F1-TC6		"when" admitting them [participants pre-assigned to a breakout session] from the lobby	when NOT admitting them	the participants should wait in the lobby	passed	
F1-TC7		"where" you can pick [session to admit a participant]	where NOT picking the breakout session	the participant should not directly join the breakout session	passed	
F2-TC1	(default)	(default)	N/A	signed-in invitee joins a scheduled meeting DIRECTLY without having to wait in the lobby	passed	
F2-TC2		"when" they were supposed to be in the meeting anyways	signed-in non-invitee joins a scheduled meeting but this signed-in person was not invited in the first place	signed-in non-invitee waits in the lobby without being auto-admitted to the meeting	passed	
F2-TC3	Remind your invitees to "sign into" Webex		having an invitee explicitly LOGOUT and then the invitee tries to join the scheduled meeting	logged-out invitee should NOT directly join a scheduled meeting	passed	
F2-TC4		"until" you or a cohost admits them	you or cohost do NOT admit them [non-signed-in or un-invited people]	they should NOT directly join a scheduled meeting	passed	
F2-TC5	doesn't "apply" to Personal Room meetings		signed-in invitee tries to join a Personal Room	signed-in person should NOT directly join a Personal Room meeting	failed	a signed-in person ended up joining in a Personal Room meeting directly without having to wait in the lobby
F2-TC6		"when" they [attendees who have host accounts] join the meeting	when non-they [attendees who do NOT have host accounts] join the meeting	they should NOT become cohosts (of that meeting)	passed	
F3-TC1	(default)	(default)	N/A	view standalone shared content window on iPad	open	unable to set up Webex successfully on iPad

Test Case ID	Action (verb phrase)	Condition (condition clause)	Logical Variation	Test Oracle	Test Verdict	Remark
F3-TC2	"Pop-out" shared content on iPad		do not operate "pop-out"	should NOT view standalone shared content window on iPad	open	unable to set up Webex successfully on iPad
F3-TC3	"swiping the right to left"		swiping in other directions	do NOT change the shared content window size to full screen	open	unable to set up Webex successfully on iPad
F4-TC1	(default)	(default)	N/A	see everyone	open	unable to set up Webex successfully on Android
F4-TC2	"view" up to 12 people on the same screen		view 13 people	should NOT see everyone	open	unable to set up Webex successfully on Android
F5-TC1	(default)	(default)	N/A	scanning the QR code should allow the sharing of the meeting information	open	unable to generate a QR code
F5-TC2		"once" you start a meeting	not starting a meeting	there should be no QR code to scan or share	open	unable to generate a QR code
F6-TC1	(default)	(default)	N/A	there should be no option to retain post-meeting data (recording and transcripts) for an indefinite period	open	unable to operate on storage retention policy
F6-TC2		"if" the retention policy is set to indefinite today	not setting the retention policy to indefinite today	the retention period should not change to 360 days	open	unable to operate on storage retention policy
F6-TC3	"purge" user-deleted recordings within 30 days		not purging user-deleted recordings within 30 days	the recordings should not be purged	open	unable to operate on storage retention policy
