## "Eye Opener"

TO THE EDITOR OF THE ENQUIRER.

The Socialist party in England has already succeeded in establishing numerous communistic systems administered by thousands of bureaucrats. In the United States the socialist Democrat party is the best springboard for Communist indoctrination in America.

Are you ready to join the Communist conspiracy? Then vote Democrat or Socialist, the super-highway leading to complete Communism.

This is the time to stand up and be counted either Communist or capitalist. All middle ground in between is located on the super-highway leading to Communism.

There is only one party in the United States which is 100 per cent pure, sincere and enthusiastically capitalist, the Republican party. No Communists allowed.

Read the Hoover address. It is an inspiring eye opener.
