

>>>comments: I myself am a student of urban planning and I find I am very
>>interested in your ideas. However I am concerned that what you propose is
>>unrealistic considering the importance of our present urban centres in
>terms
>>of history, economic function and the importance of economic location.
>These
>>issues coupled with the problem of persuading people to live in a
completely
>>different environment where theoretically they can be controlled and
>>observed at whim by the authorities seems to me to be a major drawback to
>>your scheme. Can you perhaps address these issues ?
