Orville,

Sorry Orville. Not that it is any of my business or anything, but I am 99% certain that this guy is a fake.

Do an Internet search on his name or on the company name and you will get no pertinent results.

To make sure, simply reply to him and ask him for a phone number at which you and your associates can reach him. Better still, ask him for an address and tell him that you and your associates wish to meet him in person to discuss the consultation contract and fees.

I suspect that you will not hear from him again, but if you do, I would gladly make a call with you!!

Mike

Thank you for your reply. I appreciate it very much. I would like to present your web site as a example of what can be completed in China.

Will that be OK with you. I would like your design and creation to take all of the credit. Perhaps your organization can be our engineering consultants in the building of the cities. This would help us greatly. We are happy to pay your organization as required.

If you have an interest please email me your fee requirements.

Sincerely yours,

Alexander G. Baraona, MA. PhD.
