Dear Joe:

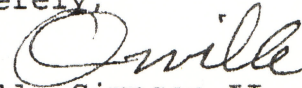

Thank you for your E-Mail dated January 2, 1998. Your writing about "displaying a large model of VC" is encouraging. I assume and hope that it is your intention also to use all the drawings in the Victory City exhibit. It is vital that people can see how the inside of the city is planned and what it will look like in the interior.

The drawings, I left there in the box, are not the ideal size for displaying on a wall. However, I have all of those in mural size, ranging from 2'x 3' up to 3'x 5'. They are all different sizes and shapes, but on the mural sizes the scales are all correct and usable. These are all mounted on Foam Core.

I left one mural size drawing there for you - a map of Victory City, mounted on Foam Core, and the scale is correct. I thought this might help you in planning a model.

If you have sufficient storage space and would like for me to bring these murals up to you in Columbus, please let me know. Perhaps, your possession of them might help you in planning the Victory City exhibit.

Sincerely,

Orville Simpson II
