Cincinnati, Ohio 45208

Dear Mr. Simpson:

It was a pleasure meeting you in Cincinnati, and as I stated then, your project is one of great foresight and commitment. As we continue to develop our long range plan for exhibits within the Museum of Science and Industry, I will keep your project in mind and hope we can make a fit of some magnitude within our "Urban Living And Architecture."

Thank you for your consideration and interest in the Museum of Science and Industry. Under separate cover you will receive your documents.

Sincerely,

Paul Huffer
Director of Exhibits
