Design 3.0 Forum

• Moving beyond this elitist question of “what if the professional designer will disappear?”
• From the designer as entrepreneur to the designer as a provocateur!!!
• Critical analysis of how open we are
• How to cultivate: trust, responsibility, reputation, accountability
• Value the individual perspectives of designers and avoid reduce design to design thinking and methodological approaches
• Hacking as a core skill (‘the good hack’, system, network, disruption, inconvenience)
