

May 5, 2005

Mr. Hu Jintao, President  
Beijing  
People's Republic of China

Dear Mr. Jintao:

I have made conceptual plans for the city of the future. These can be seen on the Internet using this address:

[www.victorycities.com](http://www.victorycities.com)

Last year, Dr. Alexander Gilbert Baraona sent me an E-mail and asked if he could use my Victory City plans for a China project. I replied that he could use all or any part of them.

A few days ago, I learned that he now has a website that is mostly copied from mine with the name Victory City changed to SHIC Mega City. There are numerous other changes which I consider to be poor or even outlandish. For example, the height of the industry buildings in my plans is 20 floors high. They changed it to 60 floors high. This would be impractical and totally out of balance with the rest of the city.

Dr. Alexander Gilbert Baraona is Chairman of the Board of Salvador Holdings International Corporation (SHIC). Here is the address of their website:

[www.SHICrealty.com](http://www.SHICrealty.com)

If the Chinese government would like to use my Victory City plans, they are welcome to use all or any part of them. Let me know if there is any information you would like.

Good luck on your building programs. The world is watching your progress.

Sincerely,

Orville Simpson II
