---

Dear Ashlea:

I have drawings for each floor of all buildings but it was impractical to include all this material on my website. Also I have conceptual plans for a museum designed to educate the public about the Victory City plans. When there is sufficient money to build the first museum that should be just the beginning of building them eventually all over the world. This will have to be after I am dead, since I am 80 now and the first museum may not be built for 10, 15, 20 or 30 years. Then it will take another 50 or even 100 years before they are built all over the world. It is hoped that they will bring in extra money to use in building the first small Victory City. Since billions of dollars will be required for the first Victory City it probably will take 100, 200, 300 or 500 or more years before it can be built. I am also hoping that eventually Victory Cities will be built all over the world.

To facilitate the above plans I have transferred all my stocks, bonds and cash from Merrill Lynch to the 5/3 Bank Capital Account and my attorney has written a new will setting up an Orville Simpson 11 Trust at the bank which should avoid probate court. After I die this Trust will be converted to a Victory City Trust, but so far the bank hasn't approved of this Trust.

Thank you for showing an interest in Victory City. Good Luck on your presentation. Let me know how it went.

Sincerely,

Orville Simpson 11
