

places in the building 24 hours a day.

Generally speaking the people in V.C. will not have occasion to carry money on them or to have any in their apartment. Virtually all the money will be in the one vault of the one bank. This bank will be located in such a way that it will be completely surrounded by police headquarters.

The hall leading into the bank will be lined with mirrors covering the entire wall on each side of the hall. On the other side of both mirrored walls the police will be able to watch everyone going in and out. These are to be one way see through mirrors. There will be doors at each end of the hall which can be closed by an electric motor and automatically locked. Both will be done by pressing a button in either the bank or in police headquarters. After the bank robber or would-be robber is trapped in the hall, gas will automatically fill the space unless turned off. When the robber is unconscious, overcome by the gas, the police can open a door into the hall and go in wearing gas masks, remove the burglar on a stretcher; carry him into police headquarters and put him in jail. The gas in the hall can be removed through a vent by turning on an exhaust fan.

REQUIREMENTS FOR RESIDENTS OF AND VISITORS TO V.C.

The greatest security in V.C. will be derived from the extremely strict requirements of all residents and visitors. When a person meets these requirements he will be issued a bankbook with his photo on it. This bankbook will entitle him to live in or travel to and visit any V.C. in the world for the rest of his life. A person without it will be barred from entering, but may apply for it in a special application office, one of which will be located in each V.C.

The application will be highly detailed and will be followed by a thorough investigation, finger-printing, photographing and complete physical examination, before final approval.

Those persons barred will include: rioters, looters, arsonists, sabaters, vandals, rapists, draft dodgers, dope addicts, alchbâlics, anyone who has a criminal record or associates with criminals or is suspected of being a criminal or being under criminal influence, psychotic people or people who were formerly psychotic. People with contagious diseases which the doctors think might endanger the general health of all others in V.C., people who have ever declared bankruptcy or have a poor credit record, communists, socialists or their sympathizers and dupes, members of the mafia or any organized crime group, their relatives and friends, or anyone suspected of being in this group, union organizers and agitators.

The above list is not all inclusive, but will illustrate some of the broad areas of people that need barring for numerous reasons.
