

Dillsboro, Ind.

Aug. 19, 1954.

Orville Simpson,  
Cincinnati, Ohio.

I read your letter in the Enquirer today and would like to know if you are speaking for the Republican Party and the news paper that printed your message.

Republicanism at its worst, under Harding and Hoover, could never dip so low. Your letter was not politics as you intended but hate of the vilest nature. Remember, sourpuss, there are millions of Democrats just as loyal and devoted to their country as you try to make people think you are.

Remember, while you are wrapped up in your little cocoon of hatred for your fellow man, Mr. Franklin D. Roosevelt was elected president four consecutive times by the hated Democrats and many good, honest, consentaneous Republicans tired of what they had passed thru.

Dont forget, Orville, the people of this state knows some thing about your city government of past years, we know as well as you however odoriferous you are you could still detect the stench arising from the city hall. Your city government got so rotten even you Republicans, accustomed to filth, rebelled and formed the Chatterite, city management form of administration. On this side of the state line, we gave a knowing nod of the head and a shy wink, the old Eagle had another feather plucked from his tail.

You old bat, for you write like one in dotage, made more money in the last 20 years than any similar time. If you hate the Democrats as you say, give that profit to the Democratic Campaign this fall and I will think you sincere.

Remember another thing, Buddie, you cant fool the American people, you tried that for twenty years while Roosevelt was winning each year. The press is almost solidly Republican but we good stanch America people read what we want and throw the remainder of the trash away. After the fall elections, I wish to hear from you. The farmer has his teeth cut and how.
