

Mr. Michael D. Eisner, Chairman
Walt Disney Productions
500 So. Buena Vista St.
Burbank, California 91521

March 16, 1987

Dear Mr. Eisner:

Do you have the capability of manufacturing and installing your monorail trains for routes between northern cities? Also do you presently have a version that is designed to overcome conditions of snow and ice? If not, would you consider engineering a monorail specifically for northern routes?

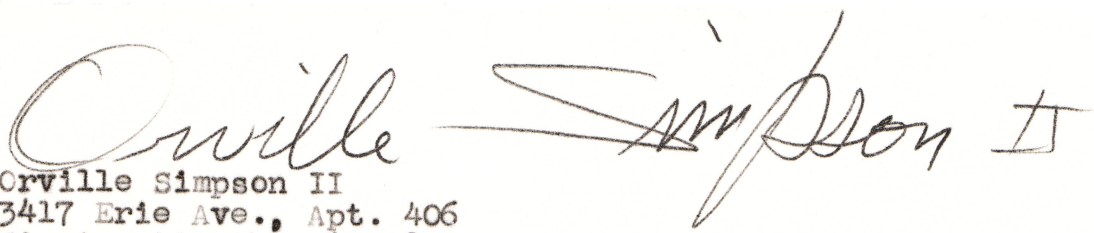

Your monorail is needed for Victory City, the city of the future. In the event that you can supply monorail trains for Victory City (VC), it would be extremely helpful if you could send a copy of your plans for your monorail station to me so that I could incorporate their main features into my plans for the VC transportation building.

Please see the enclosed photo of VC and a copy of my letter to Greyhound Lines.

I hope we can all cooperate to help create a magnificent future for mankind.

I am looking forward to all information you can give at this time.

Sincerely,

Orville Simpson II
