Orville,

Yes, please send me this list you mentioned. Please send it to:

Rick Hatton
N-016 Doan Hall
The Ohio State University Medical Center
Columbus, Ohio 43210

I will let you know what I find out.

Thanks, Rick

Dear Rick:

I have literature of the B/W Metals Co. in which there is a page listing "Typical Installations" of the Circl-Serv. If you are interested in seeing this then give me your mailing address and I will make you a copy and mail it to you. There are 39 on the list of installations. Perhaps some of them are still operating.

Bob Ritter and I went to one of these shortly after it first opened. This is S & W Cafeteria in the Asheville Mall on Tunnel Rd., Asheville, North Carolina.

If any of these installations are still operating then they should know where to get parts and service. However, Victory City will need the whole Circl-Serv not just parts.

Let me know if you would like this list and I will send it to you.

Orville Simpson11

Orville,

Thanks for getting back. I called the number you provided for Joe Poindexter (1-713-462-3562) again today and that number connects you to a private residence.

I'm interested in finding out if parts are available for the Circl-Serv. We have one in our cafeteria here at OSU Medical Center. It was purchased from a company in Fairfield, Ohio so I'm assuming it was B/W Metals.
