

destiny we must fulfill. Both your vision and ours must have their due place in human history, because they are both noble. Furthermore, Sseesamirembe City is being built on the very site believed to be the cradle of human civilization.

By joining our efforts, we can materialize these dreams in our lifetime for the benefits of the current and future generations. Please let know what you think about this and your suggestion for moving ahead. One person on our team has not yet confirmed for our trip next Monday. I shall inform you as soon as I get his confirmation. If he can't make it Monday, we shall be in Cincinnati next Thursday and meet you at your most convenient time.

I look forward to meeting soon.

Sincerely

Taranza Ganziro, Chairman
African Markets Institute
Emeland Group
